

STOP PAYING FOR ENERGY YOU DON'T NEED.

Electricity is one of your largest controllable costs. A Detailed Energy Audit shows where the money leaks, how much you can recover and how fast it pays back, backed by measured data, not guesswork.

potential identified in
commercial & industrial sites

RM 0

Upfront cost to implement
savings through ARETA EPC

RM 100k

Max SEDA grant to fund
your audit
(RM60k commercial)

Why business owners commission an audit

Cut Operating Cost

Every RM saved on energy
drops straight to profit.

Act 861 compliance

Audit reports & EM reporting
done right, first time.

Healthier equipment

Spot inefficient, overloaded
or failing plant early.

Shield against tariff hikes

Lower kWh and MD protect
margins as rates rise.

ESG & carbon targets

Credible data for sustainability
& carbon reports.

Higher asset value

Supports GreenRE and
green building ratings.

What savings look like

RM saved per year on a RM200k/month bill (illustration)

FROM AUDIT TO REAL SAVINGS

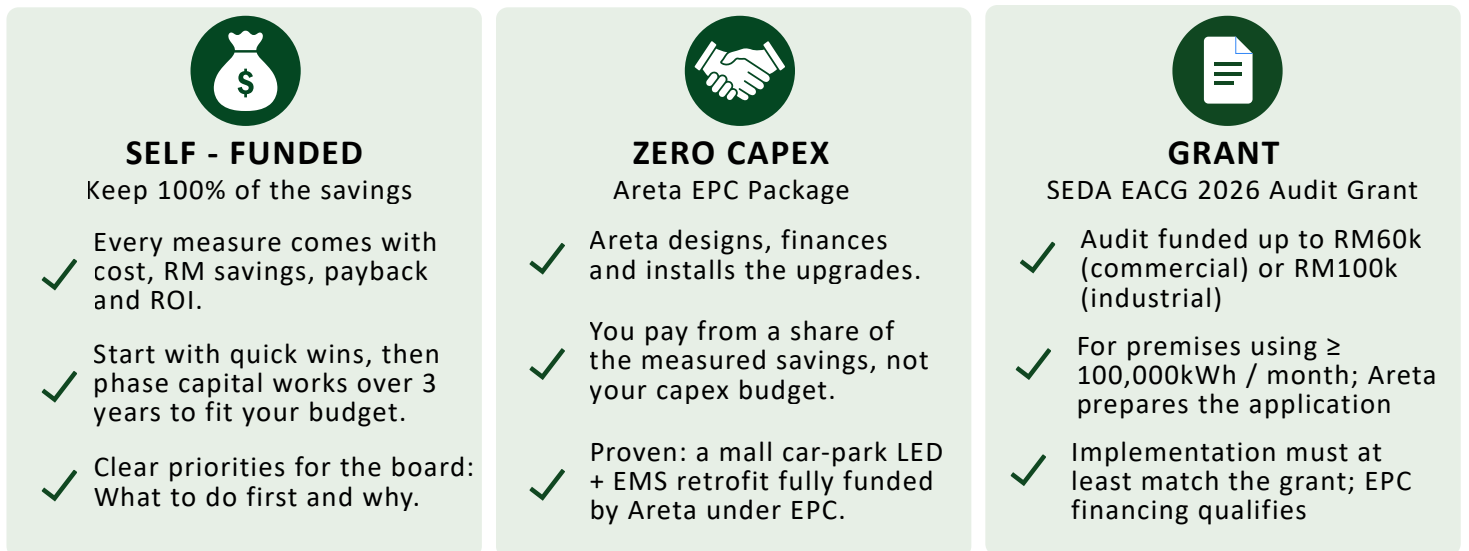

HOW YOUR MONEY COMES BACK

A clear process. Measurable results.

Our Process

Three ways to pay for the savings

The smart combination: grant-funded audit + zero-CAPEX EPC implementation
= energy savings with minimal cash outlay.
